SPRAYERS AND DISPENSING  
PUMPS FOR COSMETICS AND  
HOME CLEANING PRODUCTS

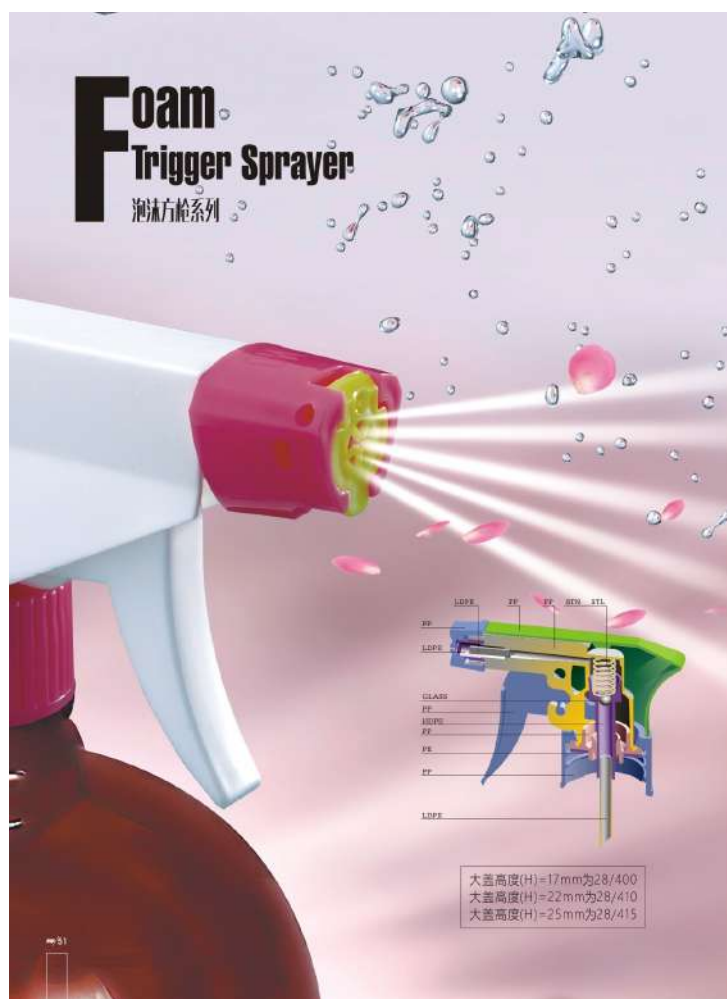

# OUR HISTORY

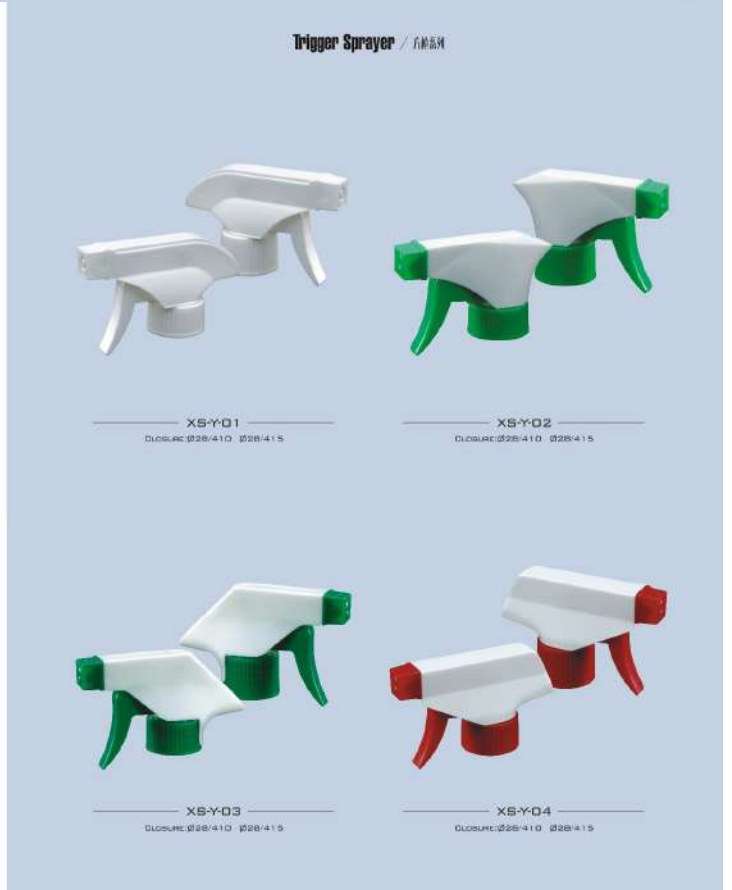

**Toka** was established in 1992. Our first business was importing replacements parts for wholesale companies that sell and repair small engine parts in Colombia and its neighboring countries in South America. The initial products sold were a wide range of parts for motorcycles, chainsaws, mowers and outboard motors used in commercial applications. In twenty one years Toka grew due to our quality products, very competitive pricing, wide availability of parts, plus our responsive and timely customer service. The company's growth resulted in expanding our headquarters by adding a second office in The United States to complement our Colombian roots.

Serendipitous events and market analysis resulted in our adding an additional industry to our service base. Toka now supplies the cosmetic and cleaning products industry with various stock and custom packaging materials including design services if requested. Products include tubes, sprayers, dispensing pumps, bottles and caps of numerous sizes, designs and compositions for cosmetics and home cleaning products.
